That works.

There's a large Chevron fueling station on the service road, south side of I-20, near where Russell Road intersects the service road. It takes about 1.5 hours to drive to the site from the office. The earliest that I can be there is 9:30. Let me know what time works for y'all. Thanks.

Hi Vince

How about next Wed. morning, Sept. 5? We could head out after morning rush hour and meet at an agreed location near the site.

Thanks

Luis, I should have added next week as well if Wed or Friday didn't work. Thanks.

How about Wednesday or Friday mornings? I should have all of the responses back to you later this morning on the scoping questions.  
Thanks.

Hi Vince

Are you available for a site visit to the Circle Court site later this week (Thursday, Aug. 30?) or would next week be better for you?

Thanks

Mike,

Attached are questions EA has on the SOW. At this time, EA does not feel that a scoping meeting will be necessary. EA will expedite submittal of the work plan as soon as answers are received.

Sincerely,

Tim

Mike,

EA will review the SOW and let EPA know if we have any questions or if a scoping meeting is requested.

Sincerely,

Tim
